# Filter Mesh for Coffee & Tea Filter

## Introduction

WEB WIRE MESH can offer filter mesh and filter elements to fit all coffee makers and teapots.

Coffee / tea filter is a filter element excellent for brewing coffee or tea, it is commonly made from perforated sheets or woven wire mesh. The fine stainless steel screen enables it to easily filter out the coffee grounds or tea leaves, then allow

the liquid coffee or tea to flow through, the tea leaves can be recycled and drawn 3 to 4 times each.

For a filter to be compatible with a coffee maker or teapots, the filter needs to be a specific shape and size. Common in the application is filter discs with diameter size range from 2” to 6”, cone-shaped filters #2, #4, and #6, as well as basket shaped filters in an 8-12 cup size.

Idea for	Filter Elements	Features & Benefits
<ul style="list-style-type: none"><li>Coffee makers</li><li>Teapots</li></ul>	<ul style="list-style-type: none"><li>Woven wire mesh filter discs</li><li>Perforated metal filter discs</li><li>Woven Wire mesh Baskets</li><li>Perforated metal baskets</li></ul>	<ul style="list-style-type: none"><li>Re-usable</li><li>Very durable</li><li>Easy to use and clean</li><li>The mesh is closely woven for less coffee residue</li><li>The ears of the filter keep the unit from slipping down into your cup</li><li>Food grade stainless steel</li></ul>

# Technical Parameters

## When ordering, please specify:

### 1. Types

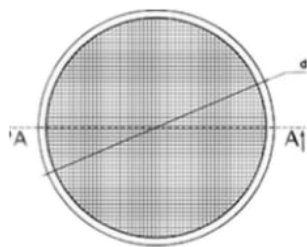

Filter discs, basket filters

### 2. Filtration rating

From 50 micron to 900 micron

### 3. Material

Stainless steel 304, 316L

Filter Discs

Basket Filter
